Supervisory activities of the BoD over the BoM were carried out in accordance with the Internal Management Regulations, the Regulations on Organization and Operation of the BoD

and the Regulation on Organization and Operation of the BoM. On the other hand, the CEO is also a Board member, which ensuring the supervision of the BoD on management activities. The BoD also assigned the BoM to closely monitor the macroeconomic situation and market developments, guidelines and directions of the Government, the State Bank of Vietnam (SBV) in order to seriously and drastically implement business solutions and innovate the methods of corporate governance.

Right from the beginning of 2019, the BoD set the business orientation with important strategic goals and assigned business KPIs to branches and departments throughout the system. In regular monthly meetings of the BoD, the CEO reported all aspects of VietinBank operations as well as progress and results of implementing AGM's resolutions, BoD's resolutions and decisions; including reports on several specialized topics at the request of the BoD. In addition, the supervision of the BoD was also reflected in the review of monthly reports of the Supervisory Board.

2019 is a pivotal year in implementing the SBV's approved tasks specified in the 2016-2020 Restructuring Plan and VietinBank's 2018-2020 Medium-term Business Plan. In the context of limited growth resources due to capital raising plan awaiting approval, under the direction and supervision of the BoD, the BoM built and implemented synchronously and effectively business solutions closely attached to the process of restructuring, specifically:

- ✓ Strongly transforming the growth model from width development to depth one, from a business that primarily relied on large-scale growth to one that focused on improvement of quality and efficiency while maintaining rational scale growth.
- ✓ Thoroughly changing the manner of delivering service to customers, promoting chain-based sales, cross-selling and providing comprehensive and full-aspect financial solutions to customers.
- ✓ Comprehensively renovating financial management activities, enhancing cost management efficiency and improving labor productivity.
- ✓ Strengthening and improving risk management standards in reviewing and assessing quality of assets.

These changes created a strong breakthrough in business efficiency in 2019, at the same time served as a solid motivation and platform, creating momentum for comprehensive development in 2020 - the last year of the business restructuring period 2016-2020.

At the same time, the BoD also consolidated the RMC with new experienced members with high expertise in administration, management as well as risk management who are members of the BoD, representatives of Human Resources Division, Risk Management Division, Legal and Compliance Division. The principle requires all departments issuing policy documents to understand the spirit and principles of determining the levels of issuance of each policy document, the form of issuance, etc. to ensure uniformity, avoid overlap and

provide convenience for users; (2) Advising the BoD on the development and implementation of the Centralized Policy Document Management System, allowing users to look up the consolidated policy, saving search time and ensuring comprehensive search. The Policy Committee also advised the BoD to review the compliance and completeness of VietinBank internal policy documents system to ensure the compliance with Circular 13 and direct the development and issuance of policy documents which complied with new laws and regulations issued in 2019.
