In 2021, VietinBank cut down its profit by more than 7,000 billion VND to implement many support solutions on lending, debt restructuring, loan interest rate reduction, service fees reduction in order to promptly overcome difficulties and accompany with the enterprises to cope with challenges. These positive business results became the strength for VietinBank to improve its financial capacity, strengthen risk provision in a prudent manner in order to proactively deal with possible arising difficulties in the coming time. By the end of 2021, VietinBank's NPL ratio was controlled at 1.3%, NPL coverage ratio reached 171% - higher than that of 2020.
