## STATEMENT OF THE BOARD OF MANAGEMENT (Continued)

### THE BOARD OF MANAGEMENT'S STATEMENT OF RESPONSIBILITY

The Board of Management of the Bank is responsible for preparing the interim separate financial statements, which give a true and fair view of the interim separate financial position of the Bank as at 30 June 2023, and of its interim separate financial performance and its interim separate cash flows for the 6-month period then ended in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting. In preparing these interim separate financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the interim separate financial statements;
- Prepare the interim separate financial statements on the going concern basis unless it is inappropriate to presume that the Bank will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the interim separate financial statements so as to minimize errors and frauds.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the interim separate financial position of the Bank, and that the interim separate financial statements comply with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting. The Board of Management is also responsible for safeguarding the assets of the Bank and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Bank has complied with the above requirements in preparing these interim separate financial statements.

For and on behalf of the Board of Management,

Nguyen Tran Manh Trung  
Deputy General Director

Hanoi, 14 August 2023

No: 0206/VN1A-HN-BC

## REPORT ON REVIEW OF INTERIM SEPARATE FINANCIAL STATEMENTS

**To:**                    **The Shareholders**  
                         **The Board of Directors and the Board of Management**  
                         **Vietnam Joint Stock Commercial Bank for Industry and Trade**

We have reviewed the accompanying interim separate financial statements of Vietnam Joint Stock Commercial Bank for Industry and Trade (the "Bank"), prepared on 14 August 2023 as set out from page 05 to page 49, which comprise the interim separate statement of financial position as at 30 June 2023, the interim separate income statement and the interim separate cash flow statement for the 6-month period then ended, and a summary of significant accounting policies and other explanatory information.

### Board of Management's Responsibility

The Bank's Board of Management is responsible for the preparation and fair presentation of these interim separate financial statements in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting and for such internal control as the Board of Management determines is necessary to enable the preparation of interim separate financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express a conclusion on these accompanying interim separate financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements (VSRE) 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim separate financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## REPORT ON REVIEW OF INTERIM SEPERATE FINANCIAL STATEMENTS (Continued)

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim separate financial statements do not present fairly, in all material respects, the interim separate financial position of the Bank as at 30 June 2023, and its interim separate financial performance and its interim separate cash flows for the 6-month period then ended in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting.

## NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS

*These notes are an integral part of and should be read in conjunction with the accompanying interim separate financial statements*

### 1. GENERAL INFORMATION

Vietnam Joint Stock Commercial Bank for Industry and Trade (herein referred to as "the Bank" or "VietinBank") is a joint stock commercial bank incorporated and registered in the Socialist Republic of Vietnam.

#### Establishment and operation

The Bank was incorporated on the basis of equitizing Vietnam Bank for Industry and Trade, a State-owned commercial bank that was incorporated under the name of Vietnam Industrial and Commercial Bank in accordance with Decree No. 53/ND-HDBT dated 26 March 1988 of the Council of Ministers on the organization of the State Bank of Vietnam ("SBV"). The Bank was officially renamed Vietnam Bank for Industry and Trade in accordance with Decision No. 402/CT dated 14 November 1990 granted by the Chairman of the Council of Ministers, and remodelled to become a State Corporation under Decision No. 285/QĐ-NH5 dated 21 September 1996 of the Governor of the SBV. On 25 December 2008, Vietnam Bank for Industry and Trade successfully carried out its initial public offering.

On 03 July 2009, the Bank was equitized and renamed Vietnam Joint Stock Commercial Bank for Industry and Trade according to Establishment and Operation License No. 142/GP-NHNN dated 03 July 2009 issued by the SBV and Business Registration Certificate No. 0103038874 dated 03 July 2009 issued by Hanoi Authority for Planning and Investment. The latest (12<sup>th</sup>) amended Enterprise Registration Certificate No. 0100111948 was issued by Hanoi Authority for Planning and Investment on 08 September 2021. On 17 June 2022, the SBV granted Establishment and Operation License No. 13/GP-NHNN to replace the Establishment and Operation License No. 142/GP-NHNN dated 03 July 2009 and amending and supplementing decisions relating thereto from 2017 to 2021.

The Bank was established to carry out banking activities under its Establishment and Operation License and Enterprise Registration Certificate, including receiving demand deposits, term deposits, savings deposits and other types of deposits; credit granting; opening current accounts for customers; providing domestic payment services; opening accounts; organizing internal payment and joining the national interbank payment system; providing cash management, banking and financial advisory services; services of managing, preserving assets, leasing cabinets, safe boxes; participating in bidding, purchasing and selling for Treasury bills, negotiable instruments, Government bonds, SBV bills and other valuable papers on the money market; buying and selling Government bonds and corporate bonds; issuing certificates of deposit, promissory notes, treasury bills and bonds to mobilize capital according to the provisions of Law on credit institutions, Law on securities, the Government's regulations and the SBV's guidance; borrowing capital from the SBV in the form of refinancing according to the provisions of the Laws of the SBV and the SBV's guidance; having borrowings to/from and deposits at/from other credit institutions, branches of foreign banks, domestic and foreign financial institutions according to the provisions of law and the SBV's guidance; carrying out capital contribution, shares acquisition according to the provisions of law and the SBV's guidance; acting as trustor, trustee and agent in banking-related activities, insurance business and asset management according to the provisions of law and the SBV's guidance; trading and providing foreign exchange services on the domestic and international market within the scope prescribed by the SBV; trading, supplying interest rate derivatives; providing securities depository and gold trading services; e-wallet; supplying commodity price derivative products; investing in Government bond futures contracts.

#### Charter capital

The Bank's charter capital under the Establishment and Operation License No. 142/GP-NHNN dated 03 July 2009 is VND 11,252,973 million, of which State-owned capital is VND 10,040,855 million and capital raised from the Initial Public Offering is VND 1,212,118 million.

On 18 October 2010, the Bank completed its share issuance with 391,931,841 shares additionally issued, of which 76,848,603 shares were issued in form of share dividend payment and 315,083,238 shares were sold to the Bank's shareholders.

On 10 March 2011, the Bank completed its share issuance to a strategic shareholder with the total number of newly issued shares of 168,581,013.

On 28 December 2011, the Bank completed its share issuance to the existing shareholders with the total number of newly issued shares of 337,162,100.

On 13 April 2012, the Bank completed its share issuance to the existing shareholders with the total number of new issued shares of 598,782,376.

On 14 May 2013, the Bank completed its share issuance to Bank of Tokyo-Mitsubishi UFJ, Ltd. with the total number of newly issued shares of 644,389,811.

On 22 October 2013, the Bank completed its share issuance to the existing shareholders with the total number of newly issued shares of 457,260,208.

On 21 July 2021, the Bank completed its share issuance to the existing shareholders for dividend payment purpose with the total number of newly issued shares of 1,082,346,053.

Accordingly, as at 30 June 2023, the Bank's charter capital is VND 48,057,506 million.

#### Operating network

The Head Office of the Bank is located at 108 Tran Hung Dao Street, Hoan Kiem District, Hanoi, Vietnam. As at 30 June 2023, the Bank has one (01) Head Office; two (02) local representative offices (in Da Nang and Ho Chi Minh City) and one (01) overseas representative office in Myanmar; eight (08) administrative units including: one (01) School of Human Resource Development and Training, one (01) Card centre, one (01) Trade Finance Centre, five (05) Cash management centres; one hundred and fifty seven (157) branches and nine hundred and fifty seven (957) transaction offices (including two (02) overseas branches).

#### Subsidiaries

As at 30 June 2023, the Bank has seven (07) subsidiary companies and one (01) subsidiary bank as follows:

No	Name	Operating Licence	Nature of business	Proportion of ownership
1	VietinBank Leasing Company Limited	License of Establishment and Operation No. 53/1998/QD-NHNN5 dated 26 January 1998 issued by the SBV and the 1 <sup>st</sup> Business Registration Certificate No. 0101047075/GP dated 31 August 2009 by Hanoi Authority for Planning and Investment, the 11 <sup>th</sup> amendment dated 01 June 2022	Finance and banking	100%

No	Name	Operating Licence	Nature of business	Proportion of ownership
2	VietinBank Securities Joint Stock Company	Establishment and Operation License No. 107/UBCK-GP dated 01 July 2009 issued by the State Securities Commission and Amended License No. 62/GPDC-UBCK dated 01 August 2023	Securities activities	75.6%
3	VietinBank Debt Management and Asset Exploitation Company Limited	Business Registration Certificate No. 0302077030/GP dated 20 July 2010 issued by Department of Planning and Investment of Ho Chi Minh City, the 6 <sup>th</sup> amendment dated 12 January 2021	Asset management	100%
4	VietinBank Insurance Joint Stock Corporation	Establishment and Operation License No. 21/GP-KDBH dated 12 December 2002 issued by the Ministry of Finance and Amended License No. 21/GPDC33/KDBH dated 03 March 2022 by the Ministry of Finance	Non-life insurance	73.4%
5	VietinBank Gold and Jewellery Trading Company Limited	Enterprise Registration Certificate No. 0105011873/GP dated 25 November 2010 granted by Hanoi Authority for Planning and Investment, the 9 <sup>th</sup> amendment dated 19 December 2022	Trading, producing and refining gold, silver, precious stones	100%
6	VietinBank Fund Management Company Limited	Establishment and Operation License No. 50/UBCK-GP dated 26 October 2010 issued by State Securities Commission and Amended License No. 105/GPDC-UBCK dated 03 November 2022	Fund management	100%
7	VietinBank Global Money Transfer Company Limited	Enterprise Registration Certificate No. 0105757686 dated 03 January 2012 issued by Hanoi Authority for Planning and Investment, the 1 <sup>st</sup> amendment dated 13 March 2015	Monetary transfer intermediary	100%
8	VietinBank Lao Limited	Enterprise Registration Certificate No. 068/NHCHDCNDL dated 08 July 2015 granted by Bank of the Lao P.D.R	Finance and banking	100%

#### Employees

The total number of employees of the Bank as at 30 June 2023 was 22,517 (as at 31 December 2022: 22,879).

**2. ACCOUNTING CONVENTION AND FINANCIAL YEAR**

**Accounting convention**

The accompanying interim separate financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting. However, due to the Bank's large scale of operation, for the purpose of preparing these interim separate financial statements, the figures are rounded to and presented in millions of Vietnam Dong (VND Million). This presentation does not materially impact the interim separate financial statements in terms of the interim separate financial position, the interim separate financial performance and interim separate cash flows of the Bank. With regard to the number of shares, the Bank presented the items in Note 19.3.

The accompanying interim separate financial statements are not intended to present the interim separate financial position, interim separate financial performance and interim separate cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

**Accounting period**

The Bank's financial year begins on 01 January and ends on 31 December. The accompanying interim separate financial statements were prepared for the 6-month period ended 30 June 2023.

**3. APPLICATION OF NEW GUIDELINES**

**Circular No. 02/2023/TT-NHNN dated 23 April 2023**

On 23 April 2023, the State Bank of Vietnam ("SBV") issued Circular No. 02/2023/TT-NHNN ("Circular 02") providing instructions for credit institutions and foreign bank branches on debt rescheduling and debt category maintaining to assist customers in difficulty. Circular 02 took effect from 24 April 2023 onwards.

Some major changes in Circular 02 that have an impact on the Bank's interim separate financial statements in the accounting period include:

- Regulations on the conditions of debts whose repayment terms of principal and/or interest are rescheduled, and on maintaining debt categories and classifying debts after rescheduling the debt repayment term; and
- Regulations on making provision for debts whose repayment terms of principal and/or interest are rescheduled according to this Circular.

**Circular No. 18/2022/TT-NHNN dated 26 December 2022**

On 26 December 2022, the State Bank of Vietnam issued Circular No. 18/2022/TT-NHNN ("Circular 18") amending and supplementing a number of articles of Circular No. 09/2015/TT-NHNN ("Circular 09") dated 17 July 2015 of the State Bank of Vietnam stipulating the debt trading of credit institutions and foreign bank branches. Circular 18 took effect from 09 February 2023 onwards.

Some major changes in this circular that have an impact on the Bank's interim separate financial statements in the accounting period include:

- Amending a number of articles of Circular 09 on the principles of debt trading; debt valuation; management of traded debts and financial handling, accounting for traded debts;
- Supplementing a number of articles of Circular 09 on debt trading in case the debt buyer has not fully paid the debt purchase amount and management and supervision of a debt partially sold or sold to multiple buyers;
- Replacing some phrases, clauses and articles of Circular 09.

The Bank has applied these circulars in the preparation and presentation of the interim separate financial statements for the 6-month period ended 30 June 2023.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted by the Bank in the preparation of these interim separate financial statements, are as follows:

##### Estimates

The preparation of the interim separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime applicable to credit institutions in Vietnam and legal regulations relating to interim separate financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the interim separate financial statements and the reported amounts of revenues and expenses during the operating period. Although these accounting estimates are based on the Board of Management's best knowledge, actual results may differ from those estimates and assumptions.

##### Foreign currencies

According to the Bank's accounting system, all transactions are recorded in original currencies. At the time of the interim separate financial statements, monetary assets and liabilities denominated in foreign currencies are translated into VND using the average buying and selling spot exchange rates at the close of business of the period-end date if the difference between this rate and the weighted average buying and selling exchange rate of the same day is less than 1% (see details of foreign currency rates applied as at 30 June 2023 in Note 34). Otherwise, the Bank uses the weighted average buying and selling exchange rates ruling at the period-end date for conversion. Income and expenses arising in foreign currencies of the Bank are converted into VND at exchange rates ruling at the transaction dates. Foreign exchange differences arising from the translation of monetary assets and liabilities from foreign currencies into VND are recognized in the interim separate income statement.

##### Cash and cash equivalents

Cash and cash equivalents comprise cash, current accounts at the SBV, current accounts, time deposits with term of three months or less from the deposit date at other credit institutions and securities investment with the original maturity of three months or less from the transaction date.

#### **Placements with and loans to other credit institutions**

Placements with and loans to other credit institutions are disclosed and presented at their outstanding principal amounts at the end of the reporting period.

The credit risk classification for placements with and loans to other credit institutions and the corresponding provisioning shall comply with the provisions of Circular No. 11/2021/TT-NHNN dated 30 July 2021 ("Circular 11") of the SBV. Accordingly, the Bank makes specific provisions for deposits (except for current accounts and placements with Vietnam Bank for Social Policies following the regulations of the SBV on maintaining the balance of deposits at Vietnam Bank for Social Policies of state credit institutions) at other credit institutions and foreign bank branches as prescribed by law, and deposits at overseas credit institutions and loans to other credit institutions in a similar way to those for loans to customers.

#### **Derivatives**

##### ***Foreign currency forward and swap contracts***

For foreign currency forward and swap contracts, the difference between equivalent VND amounts of foreign currency purchase/sale commitments using the forward exchange rate and the spot exchange rate as at effective date of the contract is recognized immediately at the effective date of the contract under "Interest and fee receivables" item or "Interest and fee payables" item in the interim separate statement of financial position. The difference is subsequently allocated to "Net gain/(loss) from foreign currency trading" item over the term of the contract.

As at the date of the interim separate financial statements, commitments of foreign currency forward contracts and swap contracts are revaluated and exchange differences arising from the revaluation of foreign currency-denominated balances of these contracts are recognized in the interim separate income statement.

##### ***Interest rate swap contracts***

Commitments of one-currency-interest-rate swap contracts are not recorded in the interim separate statement of financial position. For two-currency-interest-rate swap contracts with nominal principal swap, commitments are recognized in the interim separate statement of financial position. Income and expenses arising from interest rate effects are recorded on the accrual basis. For two-currency-interest-rate swap contracts without nominal principal swap, commitments are recognized in the interim separate statement of financial position at the date of principal exchange. Income and expenses arising from interest rate effects are recorded on the accrual basis.

#### **Loans to customers**

Loans to customers are disclosed and presented at their principal amounts outstanding at the end of the reporting period.

#### **Provision for credit losses**

##### ***Classification of loans and provision for credit losses***

Under Circular 11, credit institutions are required to implement loan classification and credit risk provisioning. Loan classification and credit risk provisioning in compliance with Circular 11 are applied to Assets (hereinafter referred to as "debts") including:

- Loans;
- Finance leasing;
- Discounts, rediscounts of negotiable instruments and other valuable papers;
- Factoring;
- Credit facilities in the form of credit card issuance;
- Payments on behalf under off-balance-sheet commitments;
- Amounts for purchase and entrustment of purchase of corporate bonds (including bonds issued by other credit institutions) which have not yet been listed on stock exchanges nor registered for trading on the UPCoM trading system (hereinafter referred to as unlisted bonds), excluding the purchase of unlisted bonds with trusted funds to which the trustee bears the risk;
- Credit granting entrustment;
- Deposits (except for current accounts and deposits at Vietnam Bank for Social Policies following regulations of the SBV on maintaining the balance of deposits at Vietnam Bank for Social Policies of state credit institutions) at other credit institutions and foreign bank branches as prescribed by law, and deposits at overseas credit institutions;
- Debt sale and purchase according to the State Bank's regulations on buying and selling debt;
- Repos of Government bonds in the stock market following the law on issuance, registration, depository, listing and trading of Government debt securities in the stock market;
- Purchase of promissory notes, bills and certificates of deposit issued by other credit institutions and foreign bank branches.

Accordingly, customers' loans are determined to be the highest of risk group as classified under Article 10 and Article 11 of Circular 11 and customers' highest debt group at credit institutions provided by the Credit Information Center ("CIC") of the SBV at the time of loan classification.

The Bank maintains the same debt group for a number of loans in accordance with the provisions of Circular No. 10/2015/TT-NHNN dated 22 July 2015 and Circular No. 25/2018/TT-NHNN dated 24 October 2018 of the SBV amending and supplementing a number of articles of Circular No. 10/2015/TT-NHNN guiding the implementation of some contents of the Government's Decree No. 55/2015/ND-CP dated 09 June 2015 ("Decree 55") on credit policies for agricultural and rural development; Circular No. 01/2020/TT-NHNN dated 13 March 2020 ("Circular 01") on debt rescheduling, exemption or reduction of interest and fees, maintaining debt categories at credit institutions and branches of foreign banks to assist customers affected by Covid-19 pandemic; Circular No. 03/2021/TT-NHNN dated 02 April 2021 ("Circular 03") amending and supplementing a number of articles of Circular 01; Circular No. 14/2021/TT-NHNN ("Circular 14") amending and supplementing a number of articles of Circular 01; Circular No. 02/2023/TT-NHNN ("Circular 02") providing instructions for credit institutions and foreign bank branches on debt rescheduling and debt category maintaining to assist customers in difficulty and documents of the SBV on debt classification and risk provisioning.

Loans are classified by risk level into the following groups: Standard, Special mention, Substandard, Doubtful and Loss. Loans classified as either Substandard, Doubtful or Loss are considered bad debts. Loan classification and provision for credit losses will be made at the end of each month and recognized in the following month. Provision for credit losses as at 30 June is recognized in the interim separate income statement for that period.

The specific provision at the period-end date is calculated by subtracting the discounted value of collateral from the remaining loan balance multiplied by the specific provision rate based on the loan classification result at the period-end. The specific provision rate for each debt group according to Circular 11 is prescribed as follows:

Group	Category	Provision rate
1	Standard	0%
2	Special mention	5%
3	Substandard	20%
4	Doubtful	50%
5	Loss	100%

Under Circular 03, the Bank is required to make a specific provision for customers whose debts are rescheduled or granted interest and fees exemption or reduction as prescribed by this Circular as follows:

- Up to 31 December 2021: by at least 30% of the specific provision to be additionally made;
- Up to 31 December 2022: by at least 60% of the specific provision to be additionally made; and
- Up to 31 December 2023: 100% of the specific provision to be additionally made.

Under Circular 02, the Bank is required to make specific provision for debts to customers whose repayment terms of the remaining principal balance are rescheduled as prescribed by this Circular as follows:

- Up to 31 December 2023: by at least 50% of the specific provision to be additionally made; and
- Up to 31 December 2024: 100% of the specific provision to be additionally made.

The additional specific provision to be made is specified in Circular 03 and Circular 02.

Following Circular 11, a general provision is made for credit losses that are yet to be identified during the loan classification and specific provisioning process as well as in cases where the Bank encounters potential financial difficulty due to the deterioration in loan quality. Accordingly, the Bank is required to fully make and maintain a general provision at 0.75% of the total outstanding loan balances which are classified into groups 1 to 4, excluding deposits at domestic credit institutions and foreign bank branches in Vietnam following the law and at overseas credit institutions; loans, termed purchase of valuable papers among credit institutions and foreign bank branches in Vietnam; purchases of promissory notes, bills, certificates of deposit or bonds issued locally by other credit institutions and foreign bank branches; and repurchase agreements of Government bonds in accordance with Circular 11.

#### ***Write-off of bad debts***

Provision is recorded as an expense on interim separate income statement and will be used to write-off bad debts. In accordance with Circular 11, the Bank must set up Risk Management Committee to deal with bad debts if they are classified as Group 5, or if borrowers are either liquidated or bankrupted legal entities, or deceased or missing individual.

#### **Classification of off-balance-sheet commitments**

The Bank classifies guarantee, acceptances of payment and irrevocable loan commitments and other credit risk bearing commitments (collectively referred to as "off-balance-sheet commitments") into groups as stipulated in Article 09, Article 10 or Article 11 of Circular 11. Accordingly, off-balance-sheet commitments are classified by risk level into the following groups: Standard, Special mention, Substandard, Doubtful and Loss.

The Bank does not make general and specific provisions for off-balance-sheet commitments in accordance with the guidance of Circular 11.

## Investments

### *Trading securities*

Trading securities include debt securities and equity securities that the Bank has bought and had the intention to sell in the near future to gain benefits from price differences. Trading securities are recognized at cost at the date of transaction and subsequently recorded at cost during the holding period. Interest and cash dividends derived from trading securities are recognized on a cash basis in the interim separate income statement.

These securities are subject to impairment review at the date of the interim separate financial statements. Provisions for securities that are stipulated in the scope of Circular 11 (as described in the summary of significant accounting policies for "Provision for credit losses") are made in accordance with Circular 11. Provisions for impairment of securities that are not stipulated in the scope of Circular 11 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recognized in the interim separate income statement as "Net gain/ (loss) from trading securities".

### *Investment securities*

#### *Available-for-sale investment securities*

Available-for-sale securities include debt and equity securities that the Bank holds for investment and available-for-sale purposes, not frequently traded but can be sold when there is a benefit. For equity securities, the Bank is neither the founding shareholder nor the strategic partner of the investees through a written agreement on the assignment of its personnel to the Board of Directors/Board of Management.

Available-for-sale equity securities are recognized at cost at the transaction date and subsequently recorded at cost during the holding period.

Available-for-sale debt securities are initially recognized at par value at the transaction date. Accrued interest before the acquisition date (for debt securities with interest payment in arrears) or interest income received upfront awaiting amortization (for debt securities with interest payment in advance) is recorded in a separate account. Any discount or premium, which is the difference between the cost and the amount equal to par value plus (+) accrued interest before the acquisition date (if any) or minus (-) interest received upfront awaiting amortization (if any), is also recorded in a separate account.

During the term of those securities in subsequent period, these securities are recorded at par value, and the discount/premium (if any) is amortized into the interim separate income statement using the straight-line method over the estimate remaining term of securities. The interest received during the securities term is recorded as follows: accumulative interest income before the purchasing date is recorded as a decrease from the cost of such securities and the same amount is credited into the accrued interest income; accumulative interest income after the purchasing date is recognised as the Bank's income on an accrual basis. Interest received in advance is recorded as income from securities investment using the straight-line method over the period of securities investment.

Periodically, available-for-sale securities are subject to impairment review. Provisions for securities that are stipulated in the scope of Circular 11 (as described in the summary of significant accounting policies for "Provision for credit losses") are made in accordance with Circular 11. Provisions for impairment of securities that are not stipulated in the scope of Circular 11 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recorded in the interim separate income statement as "Net gain/(loss) from investment securities".

*Held-to-maturity investment securities*

Held-to-maturity investment securities are debt securities that the Bank purchases for investment purposes to gain interest and the Bank has the intention and the capacity to hold the securities until maturity. Held-to-maturity securities have determinable value and fixed maturity dates. In case of being sold before maturity, they will be reclassified as trading or available-for-sale securities. Held-to-maturity investment securities are recognized similarly to available-for-sale debt securities.

Periodically, held-to-maturity securities are subject to impairment review. Provisions for securities that are fallen within the scope of Circular 11 (as described in the summary of significant accounting policies for "Provision for credit losses") are made in accordance with Circular 11. Provisions for impairment of securities that are not fallen within the scope of Circular 11 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recorded in the interim separate income statement as "Net gain/(loss) from investment securities".

*Reclassification*

According to Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 by the SBV, reclassification after the transaction date is made only once for each item of investment securities. In special cases or in case a large number of securities have to be reclassified (greater than or equal to 50% of the total value of the portfolio), the Bank will disclose the effect of reclassification on total assets, liabilities, equity, income and expenses of the Bank in the interim separate financial statements.

*Investments in subsidiaries*

Investments in subsidiaries over which the Bank has control are carried at cost in the interim separate financial statements. Distributions from accumulated net profits of subsidiaries arising subsequently to the acquisition date are recognized in the interim separate income statement for the period. Distributions from other sources are considered recovery of investments and are deducted from the cost of the investments.

*Investments in joint ventures*

Investment in a joint venture is a contractual arrangement whereby the Bank and other parties undertake an economic activity that is subject to joint control, i.e. that the strategic financial and operating policy decisions relating to the activities of the joint ventures require the unanimous consent of the parties sharing control.

Investments in joint ventures are carried at cost in the interim separate financial statements. Accordingly, the Bank's contributed capital is initially recorded at cost. Distributions from accumulated net profits of the joint ventures arising subsequently to the date of acquisition are recognized in the interim separate income statement for the period. Distributions from other sources are considered recovery of investments and are deducted from the cost of the investments.

***Other long-term investments***

Other long-term investments represent the Bank's capital investments in other enterprises at which the Bank either owns less than 11% of the voting rights and is a founding shareholder; or a strategic partner; or is capable of controlling, to some extent, the process of initiating and approving financial and operating policies of the investees, which is evidenced by a written agreement on delegating personnel for representation in the Board of Directors/Board of Management. These investments are initially recognized at cost at the transaction date and always carried at that cost during the subsequent holding period.

***Provision for impairment of capital contribution, long-term investments***

Provision for impairment of investments in capital contribution and long-term investments are made when the investee is operating at loss in accordance with prevailing accounting regulations.

Provision for impairment of capital contribution and long-term investments are recognized as an operating expense in the interim separate income statement. In case an investment is made in listed shares or the fair value of an investment is reliably determined, the provision is made based on the market value of the stock (similar to the provision for impairment of trading securities).

***Recognition***

The Bank recognizes investment securities and other investments at the date when the Bank performs the contractual terms (transaction-date based policy). Investment securities and other investments are initially recognized at cost. After initial recognition, investment securities and other investments are recognized under the above accounting policies.

***Derecognition***

Investment securities and other investments are derecognized when the rights to receive cash flows from the investments are ended or when the Bank transfers to the buyer the significant risks and rewards associated with the ownership of these investments.

***Repurchase and Reverse Repurchase Agreement***

Securities sold under agreements to be repurchased at a specific date in the future (repos) are recorded in the interim separate financial statements. The corresponding cash received from these agreements is recognized in the interim separate statement of financial position as a borrowing and the difference between the sale price and the repurchase price is allocated to the interim separate income statement over the agreement validity period using the straight-line method based on the contractual interest rate.

Securities purchased under agreements to be resold at a specific date in the future (reverse repos) are not recognized in the interim separate financial statements. The corresponding cash paid under these agreements is recognized in the interim separate statement of financial position as a loan and the difference between the purchase price and resale price is allocated into the interim separate income statement over the agreement validity period using the straight-line method based on the contractual interest rate.

#### **Trust activities and trusted funds**

The value of trusted funds is recorded when the trust contracts have been signed and trusted funds have been realized. Rights and obligations of the trustor and trustee relating to profit and profit sharing, trust fees, other rights and obligations are complied with the terms of the signed contracts. The assets that are held under custody services are not considered assets of the Bank and therefore, they are not recognized in the interim separate statement of financial position of the Bank.

#### **Tangible fixed assets**

Tangible fixed assets are stated at cost less accumulated depreciation. The cost of tangible fixed asset comprises all the Bank's purchase price plus any directly attributable costs of bringing the asset to working conditions for its intended use.

Costs related to additions and improvements are capitalized and expenditures for maintenance and repairs are charged to the interim separate income statement when incurred. When assets are sold or disposed of, their cost and accumulated depreciation are written off from the interim separate statement of financial position and any gains or losses resulting from their disposals are recorded in the interim separate income statement.

#### **Intangible assets**

Intangible assets are stated at cost less accumulated amortization. The cost of an intangible asset comprises all the Bank's expenditures paid to acquire the asset until it is put into use.

Expenditures for improvements of intangible assets are capitalized. The expenditures related to intangible assets incurred after initial recognition and evaluated with certainty, increasing the economic benefits of the intangible assets compared to the initial activity level, are capitalized. Other expenditures related to intangible assets incurred after initial recognition are charged to the interim separate income statement. When intangible assets are sold or disposed, their cost and accumulated amortization are written off and any gains or losses resulting from their disposals are recorded in the interim separate income statement.

#### **Leasing**

A lease is classified as a finance lease when significant rights and risks relating to ownership of the leased item are transferred to the lessee. All leases other than finance leases are classified as operating leases.

Operating lease assets are recognized off the interim separate statement of financial position. Rentals under operating leases are recorded in "Operating expenses" on a straight-line basis over the lease term.

#### **Depreciation and amortization**

Depreciation and amortization of tangible fixed assets and intangible assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

<u>Assets</u>	<u>Estimated useful lives (Years)</u>
Buildings and structures	05 - 40
Machinery and equipment	03 - 07
Motor vehicles and transmission equipment	06 - 07
Management tools, equipment and other tangible fixed assets	04 - 25
Computer software and other intangible assets	03 - 08

Land use rights are not amortized if they are granted by the Government of Vietnam for an indefinite term. Land use rights with definite term are amortized over the granted term.

#### **Prepaid expenses**

Prepaid expenses include actual expenses that have arisen but are related to the business performance of many accounting periods. Prepaid expenses comprise prepaid office rentals and other prepaid expenses.

Office rentals represent the office rental paid in advance. Prepaid office rental is allocated to the interim separate income statement using the straight-line method over the rental period.

Other prepaid expenses include repair, maintenance costs for assets, costs of tools and supplies issued for consumption prepaid service charges and other prepaid expenses, which are expected to provide future economic benefits to the Bank. These expenses are capitalized as prepaid expenses and are allocated to the interim separate income statement using the straight-line method over the period of three years or less in accordance with prevailing accounting regulations.

#### **Receivables**

Receivables other than those from credit activities in the Bank's operation are initially recognized at cost and subsequently recorded at cost. Other receivables are subject to impairment review based on the overdue status of the outstanding receivables or based on the expected loss for the following cases: institutional debtors who have fallen into bankruptcy or have been in the process of dissolution; or individual debtors who are missing, escaping, prosecuted, on trial or passed away even though receivables are not overdue. Provision expense incurred is recorded as "Operating expenses" in the interim separate income statement during the period.

Provision rates for doubtful receivables are applied in accordance with the prevailing accounting regulations.

#### **Other provisions**

Other provisions are recognized when the Bank has a present obligation as a result of a past event, and it is probable that the Bank will be required to settle that obligation. Other provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the accounting period.

**Capital and reserves**

***Common shares***

Common shares are classified as owners' equity.

***Share premium***

When capital is received from shareholders, the difference between selling price and par value is recorded as share premium in owners' equity. Incurred expenses that directly relate to the issuance of common shares are recognized as a decrease in share premium.

***Treasury shares***

When issued shares are repurchased, the aggregate amount paid, including expenses that directly relate to the repurchase of shares, after deducting taxes, is recorded as treasury shares and stated as a decrease in owners' equity.

***Reserves***

Reserves are used for specific purposes and are appropriated from the Bank's profit after tax based on the regulated ratios in the following sequence:

- Charter capital supplementary reserve: 5% of profit after tax but not exceeding the Bank's charter capital;
- Financial reserve fund: 10% of profit after tax;
- Bonus fund for the Board of Management, bonus and welfare fund are established in accordance with the decisions of the General Shareholders' Meeting;
- Other reserves: established in accordance with current regulations and the decisions of the General Shareholders' Meeting.

**Revenue and expenses**

***Interest and similar income/expenses***

Interest income and interest expenses are recognized in the interim separate income statement on the accrual basis. Accrued interest income arising from the loans that are classified from group 2 to group 5 in accordance with Circular 11, interest receivables on loans restructured and maintained as Standard loan group (group 1) as prescribed in Circular 01, Circular 03, Circular 14, Circular 02 and Decree 55 will not be recognized in the interim separate income statement. Accrued interest income on such loans is recorded as an off-balance-sheet item and is recognized in the interim separate income statement upon actual receipt.

Income and expenses from interest on securities investments are recorded on the accrual basis. Accrued interest income of securities that are fallen within the scope of Circular 11 and classified from group 2 upwards is not recognized in the interim separate income statement for the period. These accruals are recorded as off-balance-sheet items and are only recognized in the interim separate income statement upon actual receipt.

*Income from service charges and commissions*

Income from service charges and commissions is recognized on the accrual basis.

*Income from guarantee and L/C commitment activities*

Income from guarantee and L/C commitment activities is recognized on the accrual and allocation bases.

*Income from securities trading*

Income from securities trading is recognized as difference between selling price and cost of securities sold.

*Recognition of dividends and profits received*

Cash dividends and profits received from investment and capital contributions activities are recorded in the interim separate income statement when the Bank's right to receive dividends and profits has been established. Share dividends, which are distributed from profits of joint stock companies, are recognized neither as an increase in the value of received shares nor financial income in the interim separate financial statements but are only used for tracking the increase in the number of shares according to Circular No. 200/2014/TT-BTC dated 22 December 2014 issued by the Ministry of Finance.

*Revenue from other services*

When the contract results can be determined reliably, revenue will be recognized based on the level of work completion. If the contract results cannot be determined reliably, revenue will only be recognized at the recoverable level of the recorded expenses.

*Recognition of uncollectible receivables*

According to Circular No. 16/2018/TT-BTC dated 07 February 2018 ("Circular 16") issued by the Ministry of Finance, receivables recognized as accrued income but subsequently assessed to be not recoverable or not yet recoverable at the due date are recorded as reduction in revenue if the income has been accrued in the same financial year or recorded as other expenses if accrued in different financial year/operating period and monitored off-balance-sheet for collection. Upon actual receipt of these receivables, the Bank recognizes them as income according to the nature of the income in the interim separate income statement.

*Expenses recognition principle*

According to Circular 16, only incurred economic transactions which are deductible expenses in accordance with regulations of law on corporate income tax are recorded in the separate income statement by the Bank.

*Taxation*

Corporate income tax expense represents the sum of the current corporate income tax expense and deferred tax.

The current corporate income tax expense is based on taxable profit for the period. Taxable profit differs from profit before tax as reported in the interim separate income statement because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognized on temporary differences between carrying amounts of assets and liabilities in the interim separate financial statements and the corresponding tax bases. Deferred tax liabilities are generally recognized for all taxable temporary differences, unless they occurred from the initial recognition of an asset or liability of a transaction which has no impact on accounting profit or taxable profit/(loss) at the transaction date. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilized.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized. Deferred tax is charged or credited to the interim separate income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to corporate income taxes levied by the same tax authority and the Bank intends to settle its current tax assets and liabilities on a net basis.

The determination of the current corporate income tax expense is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

#### **Employee benefits**

##### *Post-employment benefits*

Post-employment benefits are paid to retired employees of the Bank by the Social Insurance Agency, a government-affiliated agency. The Bank is required to contribute to these post-employment benefits by paying social insurance premium to the Social Insurance Agency at the rate of 17.5% of the employee's monthly basic salary for their working period. In addition, the Bank shall pay a subsidy of 02 months of additional salary based on job positions with the average key performance indicator ("KPI") of the six consecutive months before retirement.

*Severance allowance*

According to Article 46 of Labour Code No. 45/2019/QH14 effective from 01 January 2021, the Bank is responsible to pay severance allowance for employees who have regularly been working at the Bank for 12 months or more, with half-month salary allowance for each working year (clauses 1, 2, 3, 4, 6, 7, 9 and 10 of Article 34 of the Labor Code), except for those who are eligible for receiving pension under the provisions of the law on social insurance and those as specified at Point e, Clause 1, Article 36 of the Labor Code 2019. The working period used for calculation of severance allowance excludes the period that employees benefit from unemployment insurance in accordance with regulations and the working period that employees have received severance allowance and retrenchment benefits from employers. The salary as the basis for calculation of severance allowance shall be the average salary of the last 06 months under the employment contract before the termination of labor.

*Unemployment insurance*

According to Circular No. 28/2015/TT-BLDTBXH dated 31 July 2015 of the Ministry of Labor - War Invalids and Social Affairs guiding the implementation of Article 52 of the Employment Law 2013 and Decree No. 28/2015/ND-CP of the Government dated 12 March 2015 regulating the implementation of the Employment Law on unemployment insurance, from 01 January 2009, the Bank is obliged to pay unemployment insurance to eligible employees at 1% of their salary fund allocated for unemployment insurance.

**Related parties**

The parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making decisions on financial and operating policies. A party is considered a related party with the Bank if:

- (a) Directly or indirectly through one or more intermediaries, the party:
  - Controls, or is controlled by, or is under common control by the Bank (including the holding company and its subsidiaries);
  - Contributes capital to the Bank and therefore has significant influence over the Bank;
  - Has joint control over the Bank;
- (b) The party is a joint venture or an associate of which the Bank is a venturer or an investor;
- (c) The party has a key management personnel who is also a member of the Board of Directors, Board of Supervisors, and Board of Management of the Bank;
- (d) The party is a close member of the family of any individual referred to in (a) or (c); or
- (e) The party is an entity that is, directly or indirectly controlled, jointly controlled or significantly influenced by, or of which, significant voting power in such entity resides with, any individual referred to in (c) or (d).

**Offsetting**

Financial assets and financial liabilities are offset and the net amounts are reported in the interim separate statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

	<u>1,688,788</u>		<u>1,688,788</u>	

Indovina Bank Limited was established in Vietnam with the Head Office located in Ho Chi Minh City, whose main activity is providing banking services. This is a joint venture between the Bank and Cathay United Bank, a bank established in Taiwan. Indovina Bank Limited was granted Establishment and Operation License for joint venture bank No. 101/GP-NHNN dated 11 November 2019 (replacing Operation License for Joint venture bank No. 08/NH-GP dated 29 October 1992) for the duration of 99 years with the charter capital of USD 193,000,000, equivalent to VND 3,377,500 million.

Since its establishment, as approved by the SBV, Indovina Bank Limited has made several capital increases, in which the value of capital contributed by the two parties to the joint venture increased but the proportion of contributed capital did not change. As at 30 June 2023, the charter capital of Indovina Bank Limited is USD 193,000,000, equivalent to VND 3,377,500 million.

30. RISK MANAGEMENT POLICIES RELATED TO FINANCIAL INSTRUMENTS

Under the guidance of the SBV on enhancing the role of risk management in credit institutions, the Bank continues implementing risk management policies for its entire business.

In order to achieve sustainable development, improve operational efficiency and competitive advantage, the Bank has always been one of the pioneers in researching and applying international practices to its governance. In particular, the application of Basel II Accord is one of the Bank's prioritized solutions. Projects under the Basel II program focus on the comprehensive enhancing of risk management on material areas. Until now, the Bank has completed the first phase following standard methods and is preparing for the second phase following the SBV's direction.

The application of advanced practices in risk management is a prerequisite for the integration and expansion of the Bank's influence in the global financial banking industry. The Bank has always played a pioneering role in modernizing the banking system. In addition, after Circular No. 13/2018/TT-NHNN and amendments and supplements of the regulatory authorities ("Circular 13") stipulating the internal control system of commercial banks and foreign bank branches were issued, the Bank took initiatives in reviewing and adjusting regulations and processes in accordance with the requirements of Circular 13 to ensure compliance with the standards of internal control system, risk management, internal audit and assess capital adequacy requirement internally.

In 2023, the Bank continued actively studying and implementing projects under the Basel II program in order to comprehensively enhance the management of all types of risks. Moreover, the Bank has continued to complete its policy system in five (5) levels, namely: (i) General policy regime, (ii) Detailed policies, (iii) Guidance documents on policies, (iv) General processes, and (v) Detailed processes for each product in order to ensure consistency and overall effectiveness of the policy system.

To manage risk related to financial instruments, the Bank has issued regulations, procedures, detailed guidance, sets of indicators and internal limits as well as strictly managed the balance between assets and liabilities, tightly controlled business activities' growth and credit quality; complied with limitation and safety ratios for operation; requirements for risk management as stipulated in Circular No. 22/2019/TT-NHNN (effective from 01 January 2020) and amendments and supplements of the regulatory authorities, Circular 13 and regulations of the SBV; and has gradually met requirements for risk management in accordance with Basel II.

31. CURRENCY RISKS

Currency risk is the risk that the Bank's asset or value of an investment fluctuates due to changes in foreign exchange rates.

The Bank was incorporated and operates in Vietnam and its reporting currency is VND. The Bank's main transaction currency is VND, while a part of the Bank's asset-capital is in foreign currencies (USD, EUR, etc.). Thus, currency risk may arise.

*To prevent the risk of exchange rate fluctuations, the Bank has synchronously applied the following measures:*

Based on actual data, the growth demand of affiliates and business orientations, the Asset Liability Management Department analyses and projects cash inflows/outflows and proposes the capital planning for each currency unit (in VND, USD, and EUR equivalent) to the Bank's management, which is managed based on actual daily cash flows to ensure operational safety and effectiveness of the whole system.

The Bank's capital mobilization and lending activities are mainly in VND, with a small part is in USD, EUR and other foreign currencies. According to each period's business plan, the Bank has a currency position in its capital trading activities when making financial transactions on the market. The Bank sets limits for positions of each main currency based on the Bank's risk appetite, internal risk capacity and regulations of relevant regulatory authorities.

Currency positions are managed on a daily basis and hedging strategies are used by the Bank to ensure that the positions of currencies are maintained within the limits set.

The book value of cash assets and cash liabilities denominated in foreign currencies as at 30 June 2023 are as follows:

ITEMS	EUR equivalent VND Million	USD equivalent VND Million	Other currency equivalent VND Million	Total VND Million
<b>Assets</b>

(\*) Excluding provision.

32. INTEREST RATE RISK

Interest rate risk is the possibility of the Bank's income or asset value being affected when market interest rate fluctuates.

Interest rate risk of the Bank can derive from investment activities, capital mobilization and lending activities.

The effective interest rate re-pricing period is the remaining period from the date of separate financial statements to the nearest interest rate re-pricing term of assets and capital. The following assumptions and conditions have been adopted in the analysis of the effective interest rate re-pricing period of the Bank's assets and liabilities:

- Cash; balances with the SBV; fixed assets; capital contribution, long-term investments and other liabilities are classified as non-interest-bearing items;
- The maturity of trading securities is calculated on the basis of the probable time to convert bonds into cash because this portfolio includes highly liquid bonds with fixed interest rates;
- The effective interest rate re-pricing term of placements with and loans to other credit institutions; derivative financial instruments and other financial assets; investment securities; loans to customers; other assets; borrowings from the Government and the SBV; deposits and borrowings from other credit institutions; deposits from customers; valuable papers issued; grants, trusted funds and borrowings where the Bank bears risks are determined as follows:
  - Items with fixed interest rate during the contractual period: the effective interest rate re-pricing term is determined from the reporting date to maturity date;
  - Items with floating interest rate: the effective interest rate re-pricing term is determined from the reporting date to the nearest interest rate re-pricing date;
  - Accrued income, accrued expenses: Classified as non-interest-bearing items.

*The Bank's interest rate risk policies*

For interbank lending activities (short-term), investment interest rate is based on the fluctuation of the market and the Bank's cost of capital. The interbank loans are usually short-term (of less than 3 months).

Based on forecasts on the market fluctuations of interest rate and its capital balancing ability, the Bank will make appropriate investment decisions. In case that interest rates are forecasted to go down, the Bank will strengthen long-term investments to increase profitability. In contrast, if interest rates are forecasted to go up, the Bank will increase short-term investments.

For capital mobilization activities, interest rates are determined based on the market price, the business orientation of the Bank's management, the Bank's capital balance and regulations of the SBV. The Bank's mobilized capital mainly has a short interest rate re-pricing term.

For lending activities, the Bank determines lending interest rates based on the principle of sufficient coverage for cost of capital, management expenses, risk considerations, collaterals' values and market interest rate to ensure the Bank's competitiveness & efficiency as well. The Head Office regulates the lending interest rate floor for each period; branches can decide lending interest rates of each customer for each period based on credit risk analysis and assessment provided that these rates are not below the regulated floor rate and the annual profit plan is assured. Besides, due to the capital structure mainly comprising funds with short interest rate re-pricing terms, the Bank requires that all long-term and medium-term loans' interest must be floating (interest rates are not fixed during the whole loans' periods) to minimize possible arising interest rate risk.

***Interest rate risk management***

The Bank manages interest rate risk at 2 levels: transaction level and portfolio level, in which the former is more focused.

***Interest rate risk management at the portfolio level***

- Since 2013, the Bank has issued regulations and procedures for managing interest rate risk on the banking book, which stipulate the principles for managing interest rate risk on the banking book through the process of identification, measurement, control and monitoring of risk to ensure the balance between the interest rate risk control/prevention goal and the maximization of net interest income as well as the economic value of equity in the business operations of the Bank.
- The Bank has completed the design, officially implemented and continuously upgraded the Assets-Liabilities Management ("ALM") software system, with the transaction level under international practices, automatically provides reports on re-evaluation term differences by nominal terms and by behaviours, scenario analysis reports on interest rate increase/decrease situations, etc. in order to facilitate the Bank's interest rate risk management.
- The Bank adjusts the re-pricing term of loans to the re-pricing term of capital, ensuring the re-evaluation term difference is within the permitted limit.

***Interest rate risk management at the transaction level***

- All credit contracts are required to include terms relating to interest rate risk prevention to ensure that the Bank can take initiative in coping with fluctuations of the market; lending interest rate must be set to accurately reflect the Bank's actual cost of capital.
- Management through the Fund Transfer Pricing (FTP) system: the Bank has completed and continuously improved the internal fund transfer pricing system (FTP), which enhanced the Bank's centralized management of capital and interest. Depending on the orientation of the Bank and the market movements, the Head Office can change the fund transfer price for each type of customers or products, etc. to give signals for the business units to determine their lending/capital mobilization rates.

33. LIQUIDITY RISK

Liquidity risk is defined as the risk that the Bank has difficulties in meeting obligations associated with its financial liabilities. Liquidity risk arises when the Bank might be unable to meet its payment obligations at their due dates or when the Bank has to mobilize funds at higher cost to meet its payment obligations.

The Bank had issued regulations and procedures on liquidity management, including rules about managing liquidity gap through maturity, liquidity risk ratios, stress test scenarios and backup plans to proactively take measures when facing market volatility. To minimize liquidity risk, the Bank plans to diversify its funding sources, develops a fund management report system to calculate liquidity position on a daily basis, as well as prepares analysis and forecast report on future liquidity positions on a regular basis, setting liquidity risk appetite and capacity.

At monthly ALCO Council meetings, fund balance and liquidity of the Bank is one of the key contents to be discussed. At Risk Management Committee, Risk Council meetings, the compliance with liquidity risk appetite and risk capacity is also reviewed and reported. Based on analysis and evaluation, ALCO/Risk Management Committee/Risk Council make recommendations to the Board of Directors and the Board of Management for future guidance to maintain the Bank's solvency in a safe and effective way.

In addition, the Bank also maintains a list of secondary liquid assets such as the Government bonds, which may be sold or under repurchased contracts with the SBV. It is not only a secondary reserve in liquidity stress circumstances (if any) but also a profitable investment.

The maturity of assets and liabilities represents the remaining time from the reporting date until the payment date regulated in the contract or terms of issuance.

The following assumptions and conditions have been adopted in the analysis of the Bank's maturity relating to its assets and liabilities:

- Cash and balances with the SBV are classified into maturity up to one month;
- The maturity terms of placement with and loans to other credit institutions; derivative financial instruments and other financial assets; loans to customers; investment securities; other assets; borrowings from the Government and the SBV; deposits and borrowings from other credit institutions; valuable papers issued; grants, trusted funds and borrowings where the Bank bears risk; other liabilities are determined based on the contractual maturity date;
- The maturity of trading securities is calculated on the basis of the probable time to convert bonds into cash because this portfolio includes highly liquid bonds;
- The maturity date of capital contribution, long-term investments is classified as over five (05) years as these investments have no defined maturity;
- The maturity term of deposits from customers is determined based on customer behaviour analysis and forecasts on interest rate policy and other macroeconomic factors;
- The maturity date of fixed assets is classified as five (05) years or more.

Based on the Board of Management's approval of the annual business plan, the Asset Liability Management Department in cooperation with some other relevant specialized departments makes analysis and forecasts on cash inflows/outflows of the system according to the approved plan; and also based on the actual daily capital fluctuations and utilization, the Bank makes decisions on appropriate management and monitoring of available funds.

Based on the projection of available funds, the Asset Liability Management Department in cooperation with the Treasury Trading Department manage the secondary reserve through the approval of highly liquid valuable papers purchases, which could be converted into cash on the secondary market. The Asset Liability Management Department in cooperation with the Treasury Trading Department may decide to sell valuable papers to the SBV on the open market, or to refinance loans when working capital is insufficient, ensuring the liquidity of the whole system.

Based on SBV's regulations, the Asset Liability Management Department in cooperation with the Treasury Trading Department proposes the Bank's available fund management plan, ensuring the actual average balance of deposits in VND and foreign currencies at the SBV is not below the required level of compulsory reserve. Besides, the Bank also establishes credit limit with other banks and other credit institutions for mutual support when needed. The Market Risk Management Department acts as an independent supervisor to ensure that the liquidity risks are managed in compliance with regulations, management processes, and liquidity risk appetite/capacity of the Bank.

The amount of available funds is determined based on data from the Core Sunshine system, interbank payment program CITAD, Asset-Liability Management software, information about large cash flows from business units. Therefore, the Bank can actively manage its daily liquidity risk.

The Bank's liquidity risk management activities are monitored strictly in compliance with the regulations of the SBV and the Bank's internal criteria for liquidity management for each major currency (such as VND, USD, EUR) for capital mobilization and loan portfolios.
